LearningWorks Afterschool is an afterschool program focused on serving students who are academically low performing. Our overall goal is to increase their confidence in learning. In order to reach our goal, it is important for our staff to understand students' backgrounds and how to best serve the whole child.

The MMCC provides intensive educational and behavioral services for children and young adults with special needs. The MMCC also provides high quality infant/toddler and preschool programs. We are dedicated to working with caregivers to design the most effective program for their child, providing evidence based supports, and carefully monitoring each child's progress.

I am a Substance Use Prevention & District Youth Coordinator for York County and part of the Southern Maine Health Care - Partners for Healthier Communities. I do public health coordination and community/youth engagement to improve outcomes in substance use and youth community participation domains. My work engages youth in conversation about building positive support systems, programs, and community resiliency. Applying ACE research to community and school discussions regarding early intervention to prevent substance use and dependence. Expanding community understanding of addiction as a symptom of public need, rather than a disease of moral failing.

Spurwink knows the importance of a trauma informed system and all of its programs place an emphasis on our clients and families trauma history. We train all of our staff in the Children and Residential Experiences (CARE) from Cornell University and all of our clinicians are training in Treating Traumatic Stress in Children and Adolescents. This is the ARC training, Fostering Resilience through Attachment, Self-Regulation, and Competency.

Our agency is committed to providing full-spectrum, trauma-informed, and evidence-based services to children and families. In particular, we offer specialized services for children and their families including group, family, and individual child therapy, family counseling and activity groups, crisis intervention, case management, Multi-Systemic Therapy (MST) and MST for Problem Sexual Behaviors (PSB). Early intervention for very young children and their families, (Infant Mental Health) and psychiatric Trauma-Focused Cognitive Behavioral Therapy. We offer services on-site at many schools and in primary care physicians' offices to ensure integrated and coordinated care.
